## PREFACE

The *Directory of Yugoslav Officials* identifies individuals who hold positions in selected party, government, economic, scientific, and other organizations.

**Dates of Information.** The date an individual either assumed or was first identified in a position is listed in the "%'position" column. Dates of birth are listed in the "%'birth" column for selected officials.

**Transliteration.** Yugoslavia has three official languages: Serbo-Croatian, Macedonian, and Slovenian. Serbo-Croatian is a single literary language, written in the Cyrillic alphabet in Serbia and in the Latin alphabet in Croatia. Macedonian uses the Cyrillic alphabet, and Slovenian uses the Latin. This directory follows the system authorized by the Board of Geographic Names (BGN) for transliteration from Macedonian and Serbian. In Kosovo Province, Albanian is the predominant language. Croatian, Slovenian, and Albanian use some diacritical marks to indicate pronunciation. This directory omits diacritics. Other minority languages, including Hungarian, Slovak, and Turkish, follow the BGN system.

**Personal Names.** Yugoslav personal names consist of a given name and a family name. A family or given name occasionally consists of a double name that appears in hyphenated form. This publication lists the full name of each individual whenever it is known. The family name appears first in bold type, followed by the given name. The ethnic background of some individuals appears after their given names. The republic or province that some individuals represent appears in parentheses under their names.

**Additional Directory Entries.** This directory includes some military and ecclesiastical ranks. The names of organizational components are standardized. Street addresses, transliterated names, and founding dates are provided for some organizations. Many economic and commercial organizations are listed by a commonly known transliterated name.

An index of major organizations and a personality index follow the directory listing. Duplicate names in the personality index refer to different individuals.

## **V. Republic and Provincial LC and Government Officials**

This chapter lists the major officials in the six republics and two provinces. The Republic of Serbia contains two autonomous provinces. Each republic and province has its own League of Communists, government apparatus, assembly, executive council, judiciary, and mass organizations. The functions of the political organizations are similar to those at the federal level.
